About SMIC

SMIC is the world's largest and most comprehensive in semiconductor manufacturing services. SMIC provides integrated circuit (IC) foundry and technology services on process nodes from 0.35 micron to 28 nanometer. Headquartered in Shanghai, China, SMIC has an international manufacturing and service base. In China, SMIC has a 300mm wafer fabrication facility (fab) and a 200mm fab in Shanghai; a 300mm fab and a majority-owned 300mm fab for advanced nodes in Beijing; 200mm fabs in Tianjin and Shenzhen; and a majority-owned joint-venture 300mm bumping facility in Jiangyin; additionally, in Italy SMIC has a majority-owned 200mm fab. SMIC also has marketing and customer service offices in the U.S., Europe, Japan, and Taiwan, and a representative office in Hong Kong.

Safe Harbor Statements

(Under the Private Securities Litigation Reform Act of 1995)

This press release contains, in addition to historical information, "forward-looking statements" within the meaning of the "safe harbor" provisions of the U.S. Private Securities Litigation Reform Act of 1995 and Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934. These forward-looking statements, including statements under Second Quarter 2019 Guidance, are based on SMIC's current assumptions, expectations and projections about future events. SMIC uses words like "believe," "anticipate," "intend," "estimate," "expect," "project," "target" and similar expressions to identify forward looking statements, although not all forward-looking statements contain these words. These forward-looking statements are necessarily estimates reflecting judgment of SMIC's senior management and involve significant risks, both known and unknown, uncertainties and other factors that may cause SMIC's actual performance, financial condition or results of operations to be materially different from those suggested by the forward-looking statements including, among others, risks associated with cyclical and market conditions in the semiconductor industry, intense competition, timely wafer acceptance by SMIC's customers, bad debt risk, timely introduction of new technologies, SMIC's ability to ramp new products into volume, supply and demand for semiconductor foundry services, industry overcapacity, shortages in equipment, components and raw materials, availability of manufacturing capacity and financial stability in end markets.

In addition to the information contained in this press release, you should also consider the information contained in our other filings with the SEC, including our annual report on Form 20-F filed with the SEC on April 30, 2019, especially in the "Risk Factors" section and such other documents that we may file with the SEC or The Hong Kong Stock Exchange Limited ("SEHK") from time to time, including current reports on Form 6-K. Other unknown or unpredictable factors also could have material adverse effects on our future results, performance or achievements. In light of these risks, uncertainties, assumptions and factors, the forward-looking events discussed in this press release may not occur. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date stated or, if no date is stated, as of the date of this press release. Except as required by law, SMIC undertakes no obligation and does not intend to update any forward-looking statement, whether as a result of new information, future events or otherwise.

About Non-Generally Accepted Accounting Principles ("non-GAAP") Financial Measures

MIC uses in this press release non-GAAP measures of operating results that are adjusted to exclude finance cost, depreciation and amortization, income tax benefits and expenses, the effect of employee bonus accrual, government funding, impairment loss of tangible and intangible assets, gain or loss on the disposal of machinery and equipment and gain from the disposal of living quarters. This earnings release also includes second quarter 2019 guidance for non-GAAP operating expenses. The presentation of non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with IFRS. This earnings release includes EBITDA, EBITDA margin and non-GAAP operating expenses which consist of total operating expenses as adjusted to exclude the effect of employee bonus accrual, government funding, impairment loss of tangible and intangible assets, gain or loss on the disposal of machinery and equipment and gain from the disposal of living quarters. These non-GAAP financial measures are not calculated or presented in accordance with, and are not alternatives or substitutes for financial measures prepared in accordance with IFRS, and should be read only in conjunction with the Group's financial measures prepared in accordance with IFRS. The Group's non-GAAP financial measures may be different from similarly-titled non-GAAP financial measures used by other companies.

SMIC believes that use of these non-GAAP financial measures facilitate Group uses these non-GAAP financial measures to understand, manage and evaluate the Group's business and make financial and operational decisions.

The accompanying table has more information and reconciliations of each non-GAAP financial measure to its most directly comparable GAAP financial measure. A reconciliation of non-GAAP guidance measures to corresponding GAAP measures is not available on a forward-looking basis because the effect of these adjustment items excluded for the purpose of non-GAAP operating expenses guidance are subject to some unpredictable conditions that cannot be estimated with reasonable certainty.

(3) Based on total equivalent wafers out divided by estimated total quarterly capacity.

Revenue was \$668.9 million in 1Q19, compared to \$787.6 million in 4Q18. Revenue decreased in 1Q19 mainly due to a decrease of wafer shipment and product-mix change in 1Q19.

Cost of sales was \$546.8 million in 1Q19, compared to \$653.4 million in 4Q18. Cost of sales decreased in 1Q19 mainly due to the decrease in wafer shipment and product-mix change in 1Q19.

Gross profit was \$122.1 million in 1Q19, compared to \$134.1 million in 4Q18.

Gross margin was 18.2% in 1Q19, compared to 17.0% in 4Q18.

Operating expenses were \$97.6 million in 1Q19, a decrease of 44.2% QoQ from \$175.1 million in 4Q18, mainly due to the reasons stated in Operating Expenses (Income) Analysis below.

Other income (expense), net was \$6.1 million gain in 1Q19, as compared to \$43.5 million gain in 4Q18. The change was mainly due to the reasons stated in Other Income (Expense), Net below.

Income tax expense was \$6.1 million in 1Q19, as compared to income tax benefit of \$8.3 million in 4Q18. The change was mainly due to that some subsidiaries were levied income tax in 1Q19 and recognized expected income tax refund in 4Q18.

Exchange differences on translating foreign operations were \$10.4 million gain in 1Q19 and \$7.6 million loss in 4Q18. The change was mainly due to the translation difference from the subsidiaries and associates using RMB as the functional currency caused by the appreciation of RMB against USD in 1Q19.

R&D expenses, net decreased by \$57.8 million QoQ to \$77.2 million in 1Q19, compared to \$135.0 million in 4Q18. Excluding the funding of R&D contracts from the government, R&D expenses decreased by \$34.8 million QoQ to \$150.3 million in 1Q19. The change was mainly due to less R&D activities in 1Q19. Funding of R&D contracts from the government was \$73.1 million in 1Q19, compared to \$50.1 million in 4Q18.

The change in other operating income was mainly due to more government funding as other operating income received in 1Q19.

Other Income (Expense), Net

Amounts in US\$ thousands	1Q19	4Q18	QoQ	1Q18	YoY
Other income, net	6,055	43,473	-86.1%	776	680.3%
Interest income	29,699	20,155	47.4%	12,855	131.0%

Share of (loss) gain of investment accounted for using equity method	(26,159)	21,381	-	3,343	-

The increase in interest income was mainly due to more financial assets at amortized cost acquired in 1Q19.

The increase in finance costs was mainly due to 1) new financial liabilities and related finance costs recognized as IFRS 16 Lease adopted in 1Q19 and 2) new medium-term notes issued in 1Q19.

Foreign exchange gains or losses were mainly due to the net impact of cash flow hedging and the appreciation of RMB against USD in 1Q19. Foreign monetary assets mainly consist of cash and cash equivalent and trade and other receivables in RMB. Foreign monetary liabilities mainly consist of borrowings, medium-term notes and trade and other payables in RMB.

The decrease in other gains or losses, net was mainly caused by less gain on fair value change of financial assets at fair value through profit or loss in 1Q19.

The change in share of (loss) gain of investment accounted for using equity method was due to the loss of investments in joint ventures and associates in 1Q19.

- (1) The new IFRS 16 standard resulted in almost all leases being recognized on the balance sheet by lessees, as the distinction between operating and finance leases is removed. Under the new standard, an asset (the right to use the leased item) and a financial liability to pay rentals are recognized. The only exceptions are short-term and low-value leases.

As the adoption of IFRS 16 since January 1, 2019, the Group recognized \$279.7 million right-of-use assets and \$279.7 million leased liabilities in property, plant and equipment and other liabilities, respectively.
