## First Quarter 2022 Guidance

The following statements are forward looking statements based on current expectations and involved risks and uncertainties. The Company expects (in accordance with IFRS):

	Revenue to increase by 15% to 17% QoQ. Gross margin to range from 36% to 38%.
Com deve and	global shortage of chips and the strong demand for local and indigenous manufacturing brought the pany a rare opportunity, while the restrictions of the B
was four	Company's single-quarter revenue exceeded US\$1.5 billion for the first time, and the annual revenue US\$5.4 billion, an annual increase of 39%, making us the fastest growing company among the top pure-play foundries in the world that year, and many financial indicators such as gross margin, ating margin, and net margin also hit record highs.
the bare operations op	e are opportunities and challenges in 2022, and there is a gradual shift from capacity shortage across board to a phase of structural shortage. SMIC's product platforms and capacity built up over the years concentrated in the industry's structural gaps. The Company will consistently adhere to compliant ations, continuing internationalization and deeply integrate into the global ecosystem, in order to ce customers across the globe, seek progress in a steady manner, continue to strengthen strategic teration with customers and suppliers, and steadily advance capacity expansion projects. Under the preparation effect of diversified customer base and multi-product platforms, the Company will secure existing volume, expand incremental volume, and build our competitive advantage in the IC ecosystem igher ground.
expe highe proje	er the assumption of a relatively stable external environment, the growth rate of annual revenue is acted to be better than the average of the foundry industry, and the gross margin is expected to be than our level in 2021. In order to continuously expand the existing fabs and roll out of the three new ects, it is still a high-investment year in 2022. The Capex is expected to be about \$5.0 billion, and the emental production capacity is expected to be higher than last year.
We	would like to thank all employees, customers, suppliers, investors, and the community for their trust

Share of gain of investment	136,785	29,940	356.9%	132,111	3.5%
accounted for using equity method					

- Foreign exchange gains/(losses) were mainly due to the net impact of cash flow hedging and the differences arising from currency conversion in 4Q21. Foreign monetary assets mainly consist of cash and cash equivalent and trade and other receivables in RMB. Foreign monetary liabilities mainly consist of borrowings, medium-term notes and trade and other payables in RMB.
- The increase in other gains, net in 4Q21 was primarily attributable to the increase in the gain on the fair value change of the investments in equity securities recognized as financial assets at fair value through profit or loss.
- The change in share of gain of investment accounted for using equity method was due to the gain on the investments in associates in 4Q21. Certain associates of the Group are investment funds with a number of investment portfolios. The gain on the equity investment of associates was a result of the fair value change of the portfolios and the increase in the operating profit of certain associates in 4Q21.

#### Notes:

(1) Non-IFRS operating expenses are defined as operating expenses adjusted to exclude the effect of items listed in the following table. SMIC reviews non-IFRS operating expenses together with operating expenses to understand, manage and evaluate its business and make financial and operational decisions. The Group also believes it is useful supplemental information for investors and analysts to assess its operating performance. However, the use of non-IFRS financial measures has material limitations as an analytical tool. One of the limitations of using non-IFRS financial measures is that they do not include all items that impact our net profit for the period. In addition, because non-IFRS financial measures are not calculated in the same manner by all companies, they may not be comparable to other similarly titled measures used by other companies. In light of the foregoing limitations, you should not consider the non-IFRS operating expenses in isolation from or as an alternative to operating expenses prepared in accordance with IFRS.

The following table sets forth the reconciliation of the non-IFRS operating expenses to its most directly comparable financial measure presented in accordance with IFRS, for the periods indicated.
