

CORPORATE OVERVIEW

SMIC is one of the leading semiconductor foundries in the world and the largest and most advanced foundry in Mainland China, providing integrated circuit (IC) foundry and technology services at 0.35um to 14nm. SMIC is dedicated to providing high-quality, one-stop foundry services, from design services to manufacturing and bumping.

QUICK FACTS

Founded: 2000 **IPO:** March 2004

Headquarters: Shanghai, China

Fiscal Year End: December 31

Tickers: SEHK: 981; OTCQX: SMICY

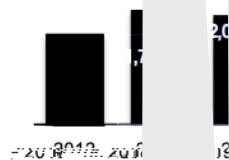

Shares Outstanding*: 5,328 million

Market Capitalization*: HK\$95.6billion / US\$12.3 billion

(*as of May 18, 2020 close)
