NEWS RELEASE

SMIC Reports 2008 First Quarter Results

*All currency figures stated in this report are in US Dollars unless stated otherwise.
The financial statement amounts in this report are determined in accordance with US GAAP.*

Shanghai, China – April 29, 2008. Semiconductor Manufacturing International Corporation (NYSE: SMI; SEHK: 981) (“SMIC” or the “Company”), one of the leading semiconductor foundries in the world, today announced its consolidated results of operations for the three months ended March 31, 2008.

First Quarter 2008 Highlights:

- Non-DRAM revenue increased by 5.5% QoQ to \$318.6 million from 4Q07 and increased by 25.6% YoY from 1Q07.
- Overall revenue, however, decreased to \$362.4 million in 1Q08, down 8.3% QoQ from 4Q07 and down 6.7% YoY from 1Q07 due to lower DRAM shipment quantity.
- DRAM as a proportion of total revenue fell to 12.1% in 1Q08 from 23.6% in 4Q07.
- Logic sales from 0.13 micron full-flow and 90 nanometer technology nodes have increased by 33.5% in 1Q08 QoQ.
- Gross margin was -9.0% in 1Q08 compared to 8.9% in 4Q07 primarily due to losses from the commodity DRAM business including a \$44.5 million additional loss provision taken against the remaining DRAM inventories.
- The Company recorded a net loss of \$119.1 million in 1Q08, including the reversal of \$20.5 million deferred income tax benefits recorded in 4Q07, as required under US GAAP, resulting in an adjusted net loss of \$19 million in 2007.
- Fully diluted EPS was (\$0.3205) per ADS.

During the first quarter of 2008, the Company reached an agreement with our customers to exit the commodity DRAM business. The Company considers this an indicator of impairment in regard to the long-lived assets of the Company’s Beijing facility in accordance with SFAS 144. As of the date of this announcement, the Company has engaged an external valuer and is in the process of evaluating whether or not such assets have been impaired. Any impairment loss, if so determined, would result in an additional non-cash charge to the Company’s net income for the first quarter of 2008.

Over a conference call, Dr. Richard Chang, Chief Executive Officer of SMIC, spoke with analysts about the quarterly results. “SMIC reported a quarterly loss of \$119.1 million, which includes an additional loss provision for DRAM inventory of about \$44.5 million, as well as the reversal of \$20.5 million deferred income tax benefits recorded in 4Q07. During the first quarter, management reached an agreement with our customers to exit the commodity DRAM business. This reduction of DRAM production and conversion of DRAM capacity into logic—which will continue throughout 2008—remains key to our strategy. As a result, SMIC made a concerted effort to reduce its DRAM foundry services by 53.0% from the previous quarter and 67.5% from the first quarter of 2007. At the same time, we increased logic shipments 6.2% quarter-on-quarter, and our 90-nm logic shipments surged 136.8% over the fourth quarter. As DRAM as a portion of our total revenue fell to 12.1% compared to 23.6% in the fourth quarter of 2007, our overall logic revenue gained 6.5% quarter-over-quarter and 25.6% year-over-year.

Safe Harbor Statements

(Under the Private Securities Litigation Reform Act of 1995)

This press release contains, in addition to historical information, "forward-looking statements" within the meaning of the "safe harbor" provisions of the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements, including statements concerning our expectation for second quarter 2008 revenue, our expectation for persistently strong demand in advanced technology nodes through the remainder of 2008, anticipated market demand for devices that consume logic ICs, our plan to enter process qualification for our 45-nm technology solution in 2009, SMIC's ability to grow and improve profitability in 2008, and statements under "Capex Summary" and "Second Quarter 2008 Guidance", are based on SMIC's current assumptions, expectations and projections about future events. SMIC uses words like "believe," "anticipate," "intend," "estimate," "expect," "project" and similar expressions to identify forward-looking statements, although not all forward-looking statements contain these words. These forward-looking statements are necessarily estimates reflecting the best judgment of SMIC's senior management and involve significant risks, both known and unknown, uncertainties and other factors that may cause SMIC's actual performance, financial condition or results of operations to be materially different from those suggested by the forward-looking statements including, among others, risks associated with cyclical and market conditions in the semiconductor industry, intense competition, timely wafer acceptance by SMIC's customers, timely introduction of new technologies, SMIC's ability to ramp new products into volume, supply and demand for semiconductor foundry services, industry overcapacity, shortages in equipment, components and raw materials, orders or judgments from pending litigation, availability of manufacturing capacity and financial stability in end markets.

Investors should consider the information contained in SMIC's filings with the U.S. Securities and Exchange Commission (SEC), including its annual report on 20-F, as amended, filed with the SEC on June 29, 2007, especially in the "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" sections, and such other documents that SMIC may file with the SEC or SEHK from time to time, including on Form 6-K. Other unknown or unpredictable factors also could have material adverse effects on SMIC's future results, performance or achievements. In light of these risks, uncertainties, assumptions and factors, the forward-looking events discussed in this press release may not occur. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date stated, or if no date is stated, as of the date of this press release. Except as required by law, SMIC undertakes no obligation and does not intend to update any forward-looking statement, whether as a result of new information, future events or otherwise.
